

14th Annual March of Dimes Bikers for Babies Ride

Sunday, September 14, 2008 • Kansas City, KS

- Please obey all traffic signals and police officers' directions along the route!
- Ride in staggered formation. Keep a safe distance from the bike in front of you -- one second behind the rider immediately in front of you and two seconds behind the rider on your side of the lane. Remember that two seconds is a MINIMUM space cushion, and more room is needed at high speeds or in large groups.
- Please be courteous; leave space to allow automobiles to exit highways as necessary.
- Anyone caught riding stunt style will be asked to leave.

IN CASE OF EMERGENCY, CALL 911. Please notify the closest HAM volunteer of any problems. HAM Radio volunteers are positioned along the route to assist registered riders. They are in direct contact with local emergency services and March of Dimes officials.

In case of mechanical emergencies, call 913-894-5201 or 800-927-5201. Registered riders are eligible for free tow service within the Kansas City metro area thanks to Santa Fe Tow Service. Note: In the event of multiple service calls, you may need to be patient.
